Eager to apply my expertise to enhance workflows, boost productivity, and excel in the role of a summer intern. Committed to continuous learning and enthusiastic about acquiring hands-on industry insights during this internship opportunity.

Projects

Dance Website | Node.js, Express.js, MongoDB, Pug, CSS

- This is a Dance Website which include frontend Template with two pages that are Home and Contact.
- The frontend template is made using Pug and CSS in the Express.
- The Contact page is connected to moongoose to fetch the data from the contact page to the mongodb where there is collection contactDance to store the data.

Watch Website | HTML, CSS, Javascript

- A Responsive E-Commerce Watch Website.
- Implemented Using HTML CSS and Javascript.

Tic Tac Toe Game | JavaScript

- A Tic Tac Toe Game with a good interface.
- Used Javascript for the logic , CSS for Styling.

Mind-Matters | React, Express, MongoDB

- Developed a mental health website to raise awareness and provide accessible resources for individuals seeking mental health support.
- Used React in frontend and used Express in backend and used MongoDB to store the required information.
- It helps people share what are the resources that they found out to be helpful. So those resources can further help other people to improve their mental state.
